

Elegance and sophistication

Styled by Dipti Patel of Charisma Interior Design

Charisma Interior Design offer a selection of creative interior design packages, from a cosy lounge to a contemporary kitchen, a tranquil bathroom to a funky teenagers den, providing a full interior design service from concept to completion of a single room to an entire home makeover.

In issue three of the Network She magazine, Dipti Patel of Charisma Interior Design generously offered one lucky reader the opportunity to win a Project Design Consultation which outlines the details of the overall style, colour scheme, materials and new layout of your chosen room. After the initial consultation, Dipti would then create a concept board which would show fabric swatches, wall and floor coverings along with

photographs of furniture, light fittings and a variety of accessories in accordance with the styles and themes discussed in the previous consultation.

Mrs Hazel Frazer of Chester was the lucky winner and met with Dipti at her home for the initial consultation. Having identified Hazel's tastes and style Dipti got to work on developing the Concept board.

Let there be light!...by first illuminating our canvas with a modest but charming antique-silver pendant light suspended from an ornate ceiling rose and complimented by relief moulded coving. This subtle suggestion of "Victoriana" reflects Hazel's very personal passion for the antique furniture adorning the room, collected over many years and each with a story to tell.

An infusion of colour to walls and fabrics provides a sense of warmth. Glamorous feature wall-covering from Harlequin with metallic tulip and leaf detailing that changes colour with the light, along with contrasting soft yellow emulsion in period matt finish to

the remaining walls, serves to brighten the room, reflecting light into dark areas.

Luxurious, fully lined silk curtains with Tulip heading and Roman Blinds in golden spice and contrasting turquoise fabrics provide elegance and a touch of sophistication, matching the character of the room and the person.
